

HMCT Educator Grants

—

The HMCT Educator Grants invest in the professional and personal enrichment of Art Center faculty members to support research, workshops, seminars, conferences and other activities which augment their knowledge and benefit their teaching. Grant recipients are asked to investigate new opportunities and ideas in the area of language and typography, and to grow as creative artists, designers, and educators. In turn, faculty members bring new and refreshed knowledge and experiences back into ArtCenter's academic community which enhances the quality of teaching.
